

A photograph of a Harvia Legend electric sauna heater in a wooden sauna. The heater is a black, cylindrical pillar with a stone-filled interior and a flat top. To its left is a wooden bench with two grey towels. In the background, a large, glowing red circular light fixture is mounted on the wall. The word "Legend" is written in a large, stylized, metallic font on the wall above the bench. The Harvia logo is in the top left corner.

Sauna & Spa

Legend

Enjoy Harvia Legend's gentle steam bath in compact size!

Harvia's Legend electric sauna heater, now in a new size, continues the Finnish sauna tradition and the story of unwavering Harvia quality! The compact Legend electric sauna heater brings the soft steam baths into small family saunas. Legend's rustic steel frame contains a large amount of stones, creating the distinctive smooth steam bath.

The heater, with fine details added by the blacksmith, is a true eye-catcher. The black Legend electric sauna heater, with its pillar shape and large amount of stones, can also be embedded impressively into the benches. Create something special with the comprehensive Legend selection.

Choose the strong Legend and begin your own legendary sauna story.

Harvia Legend XE

The digital Xenio control panel makes it extremely easy to use. All the functions are integrated directly into the Legend heater, enabling easy installation whether you are building a new sauna or putting in a new heater in your old sauna. The buttons on the Xenio control panel are illuminated for ease of use even in dimly lit saunas. Use the control panel to adjust the temperature, lighting and timers. With the timer, you can have the sauna ready whenever it suits you. The control panel can be placed inside the sauna, doubling as a digital thermometer. The XE model can be started remotely, and the safety equipment can be integrated directly into the heater.

 6,8/11 kW  6–18 m³  100 kg

Model: P0110XE, P070XE

Dimensions: width 325 mm, depth 325 mm, height 1080 mm, weight 18,5 kg

Harvia Legend E

The Legend model E sauna heater, equipped with a separate control unit, enables various connection options in home and especially in professional use. Select the Harvia control unit system that suits your needs best, or connect your Legend model E electric sauna heater to your existing heater's Harvia control unit.

Sauna at your fingertips

Harvia WiFi solutions, combined with the MyHarvia mobile app, have been designed to allow the safe and easy remote control of your sauna. These solutions allow you to switch on the sauna heater remotely and control other features that will save energy, as your sauna will be ready exactly when you are. The door sensor, a safety device included in the Harvia Xenio WiFi accessory package, keeps the sauna safe as it can be controlled remotely.
